## In cooperation with MEAN WELL, NEOTRONI illuminates its overseas achievements

Date: 2019/08/20

By : Mean Well Enterprises Co., Ltd. / Marketing Center

In its early years, NEOTRONI used other brands' LED drivers, but now we have chosen MEAN WELL as our long-term partner for three major reasons: outstanding reputation, diversified products and high quality. MEAN WELL has an outstanding reputation in the power industry, and also, we can always find LED drivers from MEAN WELL that perfectly match our illuminations from its diversified products. The most important thing is that NEOTRONI has no worries in after-sales service because of MEAN WELL's great emphasise on product quality.

Neotroni Lighting Inc.

NEOTRONI specializes in niche LED lighting applications and promotes its products in many countries around the world with the NEOTRONI brand. In addition to industrial lighting, its market share in applications with particularly high requirements in brightness such as terminals and various types of stadiums is now higher than 70%. In addition to energy savings, in recent years, NEOTRONI has been committed to promoting smart applications, letting customers achieve higher efficiency while enjoying high-quality ambience in a new work environment.
