The outstanding performance of MEAN WELL products strengthens the BLUEVIEW brand

Date: 2019.09.20

By: Marketing Center

Nicole@meanwell.com

Cooperation with MEAN WELL originated with a domestic public bank's sign panel lighting project. At that time, we used MEAN WELL because it was the only company that could meet the requirements for a five-year warranty. As a result, we have kept using MEAN WELL's products from that first cooperation a long time ago until now.

Over the years, thanks to the excellent customer response, we have gradually introduced MEAN WELL products into the recent traffic application projects from the early financial system projects. MEAN WELL's stable product performance has also invisibly enhanced the outstanding reputation of BLUEVIEW in the market!

In the LED lighting field, BLUEVIEW has focus on the sign panel lighting and commercial lighting box markets, and now it has become one of the largest production bases in this field in China. BLUEVIEW has established 38 offices around the world, built up marketing networks and provides after-sales service throughout those countries.

In terms of technology, BLUEVIEW has more than 80 patents and its products are widely sold in more than 140 countries and regions around the world. As a result of this and its excellence, BLUEVIEW has become the leader in this field. In the future, BLUEVIEW is looking forward to serving more global customers and bringing customers a more intimate and unique lighting experience.
