Taiwan Design Exhibition A Windy City Decorated with LED Lighting

Date: Nov. 9 2020
By: Marketing Center
Nicole@meanwell.com

Hsinchu, known as the windy city in Taiwan, welcomed the annual event "Taiwan Design Exhibition" in October 2020. During the year-long preparatory period, the Hsinchu government planned "one axis, two main exhibition areas" in the central city. They hoped the public can experience the transformation of the ancient city and the technological energy of Taiwan's high-tech town.

One of Powered by MEAN WELL's clients, EPOCH Lighting, is honored to participate in this event. In addition to the outstanding luminous design representing the MIT(made in Taiwan) technology, its unique aesthetics concept also makes the ancient city more charming under the beautiful light. We invite you to click the video below to experience the charm of LED lighting with us at the design exhibition.
